Internet Activity

Lunar Timeline

Use an Internet search engine to research the *Luna*, *Apollo*, and *Surveyor* lunar missions.

1. What search engine did you use? _____
2. What keywords did you use in your search?

3. List URLs for two Web sites about this topic.

4. What is the source for the information used on these Web sites?

5. List any universities or professional organizations with which these Web sites are affiliated. _____

Use the Web sites you listed in question 3 to answer the following questions.

6. When did the successful missions from each program take place? Create a timeline illustrating these dates.

7. Why were some missions manned and others not?

8. Choose one program, and summarize how the mission accomplished its stated goals.

GOING FURTHER

9. Investigate the *Lunar Prospector* and *Selene Lunar Lander* missions. Describe their goals, how the goals were met, important successes, and key findings. Share your research with the class in an oral report with poster illustrations.
