Write the formula for the following binary compounds.

1. Barium fluoride
2. Lithium chloride

3. Silver iodide
4. Copper(I) oxide

5. Calcium carbide
6. Cobalt chloride

7. Tin fluoride
8. Iron(II) oxide

9. Copper(II) nitride
10. Lead nitride

11. Lead carbide
12. Barium phosphide

13. Magnesium bromide
14. Iron(II) sulfide

15. Hydrogen iodide
SCIENCE 9
WRITING FORMULAS
FOR
TERNARY COMPOUNDS

1. sodium hydroxide

2. lithium bicarbonate

3. calcium phosphate

4. hydrogen carbonate

5. zinc sulfate

6. silver acetate

7. potassium chlorate

8. barium phosphate

9. lead nitrate

10. ammonium carbonate

11. magnesium phosphate

12. ammonium hydroxide

13. copper(I) nitrate

14. iron(III) carbonate
